Subject: Carolina Water's Requested Increase

Mr. Chairman:

The increase Carolina Water has requested does not require a 80% increase in rates. It is simply unreasonable for any one to comprehend that type of increase. We do not have a choice for our water supplier, however you and the Commissioners are responsible people and I plead with you not to allow this to happen. I am retired & have been in business all my life managing small operations to large ones including districts for UPS. NEVER, have I had a supplier nor could we as a company ever justify anything like Carolina Waters wants you to approve. I would expect you and the Commissioners to look after our best interests as we have put our trust in this board.

Thank you,
James A. Olson
